

**MS300**

## **BestPack™ Mobile Stretch Wrapper** Semi-Automatic

The BestPack MS300 mobile stretch wrapper is designed to be a portable and efficient aid for packaging in your facility.

Perfect for wrapping pallets in different or changing locations of your warehouse, manufacturing facility, or distribution center. The BestPack MS300-95 mobile stretch wrapper is the ideal solution for environments where flexibility and efficiency in packaging are essential.

**CBM Systems BestPack™ Mobile Wrapper**

### **See what the MS300 can do for you!**

- 1. Film Pre-Stretch of up to 300% & 230%.**
- 2. Wrap pallets of nearly all sizes, including irregular, large, and heavy loads.**
- 3. Forklift Free Operation - push button controls allow you to move the machine anywhere!**

#### **Plug while you're away – Always charged when you need it!**

On one full charge, this machine can wrap up to 300 pallets. Just set your wrap settings and let it do the work.

#### **Improve load integrity and reduce shipping damage**

Consistent performance and excellent load stability during transport keeps your load tightly secured more effectively than hand-wrapping.

#### **Lower overall cost per load**

Get the job done faster and waste less stretch wrap when switching to a BestPack™ mobile stretch wrapper.

## Make wrapping as easy as 1... 2... 3...!

*Position your wrapper, hit start, and let the MS300 take care of the rest!*

- Keep your products secure and stable as your pallet stays in place while being wrapped.
- Adjustable wrap settings to meet any specific needs and ensure optimal protection.
- Stage your pallets and wrap them without the need for a forklift.
- Pre-stretch film up to 300%.
- Compact and space-efficient compared to large stationary rotary wrappers.
- Touchscreen Interface - Simple to use and saves up to 10 wrap settings!

## Machine Footprint

Specifications subject to change without notice.

<sup>1</sup> Wrap speeds may vary depending on load configuration.
