CERTIFIED CLASS III/IIIL

RFX WIRELESS

Capable of cabled or wireless configurations, the PT20™ CPU is ideal for customers wanting an all-in-one weight data processing center for monitoring and controlling loads. Its standard USB/RS232 output enables the PT20™ to communicate wirelessly with a variety of devices, including displays and scoreboards, saving time and improving safety. Displays Scale Layout or Scale List with Weight Units, Total Weight and Center of Gravity or Gross, Net, Tare (GNT). The software allows four optional user info fields and seven optional vehicle info fields that display when printed and automatically computes altitude and latitude corrections.
