

AGRICULTURAL SCALES

Harvester® PSC Truck Scales

Patented Pre-Cast Concrete Deck Strength

- Economical truck scale value for farm weighing applications
- Platform lengths from 17.5 to 105 feet
- Up to 50-ton capacity available
- High-tensile-strength, factory-poured concrete decks
- 3-year deck-and-below warranty
- Optional guide rails available

Harvester® LSC Livestock Scales

Group Livestock Weighing with Concrete Deck

- Cattle pen with two-end swing gates included/pre-installed
- Ideal for stockyards, sale barns, feedlots, and private farms
- Up to 30-ton capacity and 52.5 ft. long x 10 ft. wide sizes
- Four hinge points on each gate for superior durability
- Checkered diamond pattern permanently etched into the concrete deck for hoof-gripping stability and animal safety

SLS Livestock Scales

Single Animal Weighing with Pen and Gates

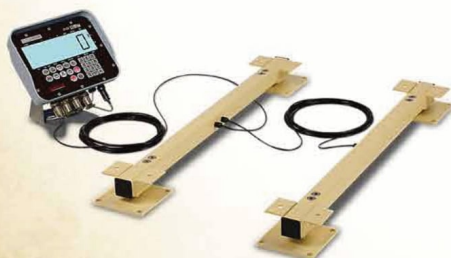

- Accurate to within 1/2 lb
- Dual slide-out gates included
- Stainless steel junction box and load cells
- Up to 5,000 lb capacity
- Ideal for weighing cattle, sheep, goats, swine, and more
- Rubber mat interior flooring for animal stability and safety

AGBAR Scales

Mobile or Static Weighing Farm Applications

- May be mounted between the truck or trailer frame and the box to form a mobile scale
- Seed cart, feed mixer, or fertilizer spreader mobile weighing
- Small silo scale, pallet scale, or platform scale static weighing
- Durable alloy steel construction
- No junction box is required

LB Series Load Bars

Versatile, Customizable Weighing Applications

- Multi-purpose weighing use as cake scales, chute scales, bin scales, or small non-legal-for-trade livestock scales
- Cables included - no summing box needed
- Mild steel construction
- Up to 5,000 lb capacity and accurate to within +/- 1%
- Extra-wide foot plates for added stability and support
