Built for high-volume shipping and receiving, the LD3 turns a bottleneck into a pass-through. Loads roll onto the deck, capture weight on the US-6011 LCD indicator, and roll straight off. No lifting, no repositioning, no lost motion. Every LD3 ships with sealed alloy steel shear-beam load cells, a NEMA 4X stainless junction box, and RS-232 plus USB connectivity for printers, scoreboards, and PC integration.
