INDUSTRIAL FLOOR SCALE

Ball Transfer Floor Scale

Industrial Weighing with Effortless Package Movement

WHY OPERATORS CHOOSE IT

- ✓ **100+ Ball Bearings** at freight roll smoothly in any direction
- ✓ **Zero Lifting** on or off the scale, slashing cycle time
- ✓ **4'x4' Steel Platform** with IP67 sealed shear-beam load cells
- ✓ **5K or 10K lb** capacity, US-6011 LCD indicator included
- ✓ **Pit-Mountable** with conveyor-line integration ready
- ✓ **Free Shipping** + 5-Year Frame Warranty

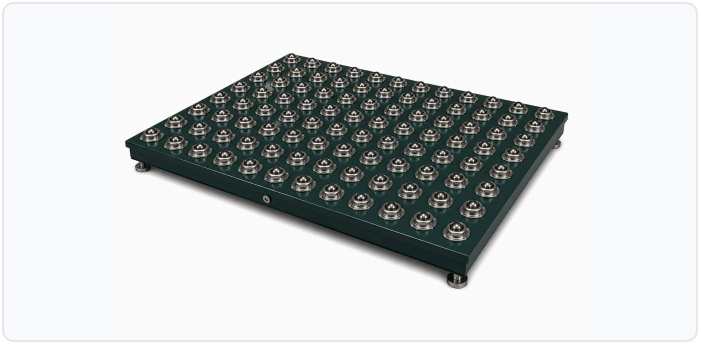

CAPACITY OPTIONS

Model	Capacity	Resolution	Platform	Price
US-MR4848-BT-5K	5,000 lb	1 lb	48" x 48"	**$2,299 + Free Ship**
US-MR4848-BT-10K	10,000 lb	2 lb	48" x 48"	**$2,499 + Free Ship**

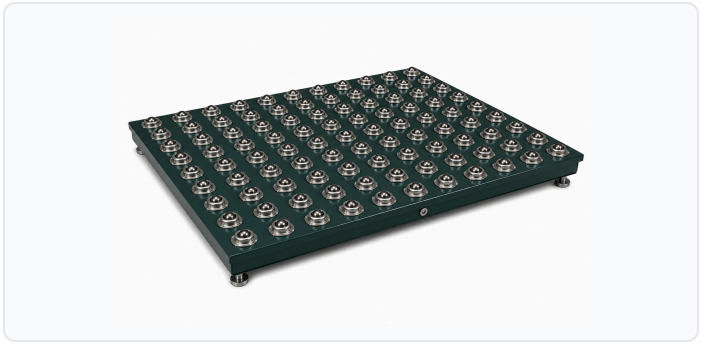

WHY A BALL TRANSFER TOP?

Traditional flat-top floor scales force workers to lift heavy boxes and packages onto the platform, slowing throughput and creating injury risk. The Ball Transfer Floor Scale solves both problems. A tight grid of 100+ stainless-steel ball bearings lets boxes, parcels, and pallets glide across the deck with one hand. Drop it into a roller conveyor line at the same deck height and your shipping cell never breaks flow.

BALL TRANSFER FLOOR SCALE — FEATURES & SPECIFICATIONS

48"x48" mild steel deck with 100+ stainless ball bearings

US-6011 LCD indicator with stainless face and dual RS-232

STANDARD FEATURES

- ✓ 48"x48" mild steel platform, industrial-grade finish
- ✓ 100+ stainless steel ball transfer bearings
- ✓ 4 sealed alloy steel shear-beam load cells, IP67
- ✓ NEMA 4X stainless steel junction box
- ✓ Summing card with lightning protection
- ✓ US-6011 LCD indicator, backlit, stainless face
- ✓ Tare, zero, units, count, hold, accumulator, print
- ✓ Dual RS-232 serial output (printer or PC)
- ✓ 20 ft armored interface cable
- ✓ AC adapter included, battery option available
- ✓ Adjustable leveling feet on all four corners
- ✓ Pit-mountable for flush installation

SPECIFICATIONS

Platform Size	**48" x 48" (4'x 4')**
Platform Height	**Approximately 2.5"**
Capacity	**5,000 lb or 10,000 lb**
Resolution	**1 lb (5K) / 2 lb (10K)**
Load Cells	**4 x sealed shear beam, IP67**
Junction Box	**NEMA 4X stainless steel**
Indicator	**US-6011 LCD**
Connectivity	**Dual RS-232 Serial**
Power	**AC adapter, optional battery**
Cable	**20 ft armored**
Operating Temp	**14°F to 104°F**

IDEAL APPLICATIONS

- Warehouse shipping & receiving
- Manufacturing receiving docks
- E-commerce fulfillment centers
- Conveyor-line integration
- Mail and parcel processing
- Pallet weighing with roll-on access
