US-MR-DC SERIES

Industrial Dual Counting Floor Scale System

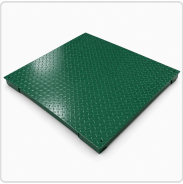

The US-MR-DC is a dual counting scale system designed for fast, accurate parts counting across both small and large quantities. The compact precision counting scale samples a known quantity of parts to establish the individual piece weight. Once set, the connected floor scale weighs larger bins, pallets, or bulk quantities and automatically calculates the total piece count — giving you the accuracy of a bench counting scale with the capacity of a heavy-duty floor scale.

Ideal for inventory management, warehousing, manufacturing, and high-volume parts operations. The steel-frame platform withstands heavy daily use, while the RS-232 connection between both units ensures real-time, synchronized counting.

STANDARD FEATURES

- ✓ Dual-display system — precision counting scale paired with heavy-duty floor scale
- ✓ RS-232 interface connects both scales for automatic piece count calculation
- ✓ Large backlit LCD display on both indicators
- ✓ Stainless steel load cells with 200% overload protection
- ✓ Steel-braided cables — no plastic connectors
- ✓ Low-profile diamond-plate steel deck
- ✓ Adjustable leveling feet — no ramps required for most applications
- ✓ AC adapter included; rechargeable battery backup optional
- ✓ 5-year warranty on platform & frame
- ✓ Available in 12 platform sizes and 5 capacity options

CAPACITY OPTIONS

Counting Scale	Floor Scale
6 lb × .0002 lb	1,000 lb × .2 lb
13 lb × .0004 lb	2,500 lb × .5 lb
33 lb × .001 lb	5,000 lb × 1 lb
66 lb × .002 lb	10,000 lb × 1 lb
66 lb × .002 lb	20,000 lb × 2 lb

KEY SPECIFICATIONS

PLATFORM MATERIAL **Diamond-Plate Steel**	LOAD CELLS **Stainless Steel**
OVERLOAD PROTECTION **200%**	WARRANTY **5 Years**
CONNECTION **RS-232**	DISPLAY **Backlit LCD**

COMMON APPLICATIONS

- › Inventory counting & parts management
- › Warehouse receiving & shipping verification
- › Manufacturing & assembly line counting
- › Bulk bin & pallet quantity verification
